### HOW TO MEASURE

**Bust:** Measurements taken from underarm to underarm. Measure under your arms at the fuller part of your bust - keep tape parallel to shoulder blades.

**Waist:** Measure around your natural waistline, generally 10" from the underarm, keeping the tape comfortably loose.

**Pant Waist:** Measurement taken a few inches below your natural waist. The waistband will rest at about 1-2" below your belly button.

**Hip:** Stand with feet together and measure around the fullest point of the hip, keeping the tape parallel to the floor.

**Inseam:** In bare feet take the measurement from your crotch to the bottom of your leg.
